

Digital Health & Care Innovation Centre

[Who we are](#) | [DHI Exchange](#) | [Join our network](#) | [Archive](#)

Hello ,

Welcome to the December edition of our Digital Health & Care Innovation Centre e-newsletter.

It's time to take a break and browse the latest news and events from across the sector. This month DHI are looking to recruit new board members and there's still time to make your submissions for two different academic proposals.

In line with the University of Strathclyde's Christmas vacation period, DHI will be closing our office from 1700 on Friday 22 December and will re-open on Monday 08 January 2024 at 0900.

We hope you all have a fantastic Christmas period with family and friends and enjoy some downtime to relax and rejuvenate for the new year ahead.

Help shape the future of digital health and care in Scotland!

The Digital Health & Care Innovation Centre (DHI) is seeking motivated and passionate individuals to join our esteemed Board.

We are particularly interested in candidates with experience in social care, the college sector, or the digital health and care business sector.

As a Board Member, you will play a crucial role in shaping the strategic direction and success of DHI.

“ The transfer of the Right Decision Service from DHI into HIS, will continue to add increasing value to the delivery of high quality, safe health and care services for the people of Scotland, demonstrating how a national innovation centre can support, nurture and grow a new digital service to the point where it can successfully move to national adoption and scale. ”

George Crooks OBE
Chief Executive Officer

New app-based service to support delivery of best health and care in Scotland gets go ahead

A new app-based service is to be delivered by Healthcare Improvement Scotland (HIS) as a one-stop shop to support the best clinical and care decision-making across health and social care in Scotland.

The service will be the first of its kind in the UK and will mark the next stage of the development and roll-out of the Right Decision Service (RDS), which has been supported

by the Digital Health & Care Innovation Centre (DHI), from its early innovation stages.
