Hello ,

Welcome to the latest edition of our Digital Health & Care Innovation Centre e-newsletter.

It's time to take a break and read your latest news and events from across the sector.

In your news

Scotland's National Innovation Strategy

Scotland's National Innovation Strategy

Innovation is a key tool to make Scotland a fairer, more equal, wealthier, and greener country. The Scottish Government has published an ambitious ten-year strategy to make Scotland one of the most innovative small countries in the world.

Health and Life Sciences is featured as one of the main innovation priority areas. Within the breadth of specialisms represented in Scotland's Health and Life Sciences sector, several highly innovative vertical sector-specific opportunities within health innovation have been identified as having significant growth potential:

- Digital Health
- Future Medicines Manufacturing
- Precision Medicine

SHIP, part of the Scottish Government CSO has partnered with CivTech to fund a Menopause Innovation Challenge.

[Apply to the Challenge](#) (before 22 August deadline)

The Entrepreneurial Campus

Ross Tuffee and
Professor Joe Little

2023

The Entrepreneurial Campus 2023

A ten-year plan to help create world-class entrepreneurial campuses at 45 universities and colleges across Scotland has been launched by the First Minister.

Strengthening global networks and supporting more university start-up businesses is among a raft of actions in The Entrepreneurial Campus plan - aimed at inspiring entrepreneurial thinking and improving enterprise skills.

A £5.5 million increase in the 2023-24 University Innovation Fund will help universities deliver the blueprint and Scotland's National Innovation Strategy while backing their wider efforts to turn world-leading research into important innovations.
